ITEM NO. (5): Commission’s Priorities

Richard Corral of Corral Consulting moderated the discussion. Mr. Corral reviewed the results of the on-line survey completed by the Commissioners, and received agreement by the Commission to discuss policies and strategies for the top two: (1) Employment and (2) Housing and Homelessness.

Although the priority list is included in these minutes as an attachment, the major points are summarized below:

**Employment**

Identify goals, such as “X range of constituents employed by Y date,” and “Vocational training through LAUSD - Division of Adult and Career Education.”

Identify and address employment policies. For one recommend a change in the income threshold for the Ticket to Work Program. Also, recommend tax credits for employers to hire people with disabilities. For instance, the tax credit could be similar to those tax credits once provided under the Housing and Urban Development’s (HUD) Job Training Partnership Act (JTPA). If a tax credit is recommended, ensure that the recommendation is for a ballot measure for citizens of Los Angeles and not those for the entire State of California, in order to narrow the voters needed for approval. Once the Employment and Workforce Development Department (EWDD) completes its RFP, the Commission can recommend employment requirements for people with disabilities.

**Housing and Homelessness**

Recommend more money for Section 8, especially for accepting people with disabilities, in the form of set-asides; review Measures H and HHH; identify sources of funding for homelessness, as a significant percentage of the homeless have disabilities; identify allies like the County, Housing Authority of City of Los Angeles (HACLA), and Housing and Community Investment Department (HCID); discuss how to integrate the work of these entities with...
COD’s activities; create incentives for landlords for accepting people with disabilities; recommend funding set-asides in housing / homelessness for people with disabilities in federal and local programs; ensure the COD has identified projects for funding set-asides, if set-asides are authorized for housing/homelessness for people with disabilities; obtain a better understanding of fair housing among constituent and the process for lodging grievances; and identify the agencies that oversee housing and homelessness programs, such as Housing Authority and Housing and Community Investment Department.

A comprehensive approach that includes talking points should be drafted before approaching EWDD for resources.
